FOR IMMEDIATE RELEASE

Assessor Keith Russell Announces New Website Services

Effective Friday, August 21, 2009, the Maricopa County Assessor's Website will be updated to include Business Personal Property information for our business property owners.

New services will include the ability to search Business Personal Property assessment records, a calendar of important events, answer frequently asked questions, and important information on E-Filing. In addition, the website will provide Personal Property forms and general information including important internet links relating to business personal property.

Citizens will have the ability to search for information five different ways; by personal property Roll/Account Number, by Owner/Business Name, by Property Location, by Multiple Number, and by Lessor Number.

The Website Enhancement Project Team has worked diligently to provide tools for the public to search business personal property information and improve services provided to the citizens of Maricopa County.
